Company Overview

Royale Export is a trusted solutions partner in the global infrastructure and construction landscape, delivering excellence in Engineering, Procurement, and Execution across MEP (Mechanical, Electrical, and Plumbing) systems. With a strong foundation in manufacturing and supply of high-quality components—such as threaded rods, pipe hangers, U-bolts, clamps, and fire-fighting supports—we serve as a one-stop source for integrated project needs.

We go beyond material supply by offering complete consulting, design, and installation services tailored to commercial, industrial, and infrastructure projects. From fire safety systems to HVAC and electrical installations, our team ensures technical precision and timely delivery from concept to commissioning.

Additionally, Royale Export has strategic tie-ups with top-tier manufacturers in the sanitaryware and bathroom fittings segment, enabling us to provide clients with premium-quality fixtures that meet both aesthetic and performance standards.

Driven by a commitment to quality, safety, and long-term partnerships, Royale Export empowers clients to execute high-impact projects with confidence, efficiency, and compliance across global markets.
